RALLYING YOUTH VOICES FOR BIODIVERSITY

Welcome!

We are very excited you will be joining us for our first module of the GYBN Online Capacity Building Training sessions. These trainings are a key component of our Youth Engagement Roadmap for the Post-2020 Global Biodiversity Framework (GBF).

In this document you will find the training agenda with the daily schedule and Zoom link details. Please note that every session will be offered twice in an early and late time, except session zero, efforts will be made to provide live interpretation for French (earlier session) and Spanish (later session).

Please choose the session that works better for your schedule and according to your language requirements. You can switch between the early and late sessions during the training, just be sure to not miss out any. In case you have any connectivity problems, you can check the recorded session on our [YouTube channel](#).

We strongly suggest that you add all sessions that you will be attending into your calendar, so they reflect your time zone.

We are also excited to make this training a great opportunity for networking, collaborations, to share experiences and ideas, and to inspire each other!

During this training you will build a deeper understanding of biodiversity, explore what you can do to address the socio-ecological crisis we are currently facing, exchange ideas and perspectives with new friends around the world and get ready to train and mobilize your local community for a coordinated youth action for the Post-2020 GBF.

RALLYING YOUTH VOICES FOR BIODIVERSITY

To improve your experience, we have prepared a list of resources (videos, papers, blog posts, books, and others) for you to take a look at so you can feel and be more prepared. Take your time, this doesn't mean you have to read it all. We hope that this training will help you build your knowledge, confidence and sense of empowerment!

And together, we can mobilize young people around the world to take effective action for biodiversity and push for meaningful youth engagement across all decision-making processes related to our future with biodiversity, starting with the Post-2020 Global Biodiversity Framework.

On behalf of the Global Youth Biodiversity Network we look forward to an enriching, powerful, engaging and successful experience. Can't wait to meet you!

Communication

We will be using **Telegram** as our main communication channel. The application can be downloaded into your phone or on your computer. The device where you download is not dependable on the other, which means you can choose to have it only in one place.

We have a **broadcast channel** where the most relevant announcements regarding the training and follow up activities will be posted. We also have a closed **group chat for participants** to chat informally and get to know each other, so feel free to join the chat and introduce yourself with your name, where you are from, what you do and a fun fact about you. If you have any specific information you would like us to share in the broadcast channel, please feel free to reach anyone from our team.
