A Week of Action

This Biodiversity Week, let's **create awareness** about the building blocks of nature and ecosystems, **drive actions** big and small, give youth across the globe a platform to **act together**, and **demand bold action** for people and nature!

Let us know what you have planned!

Or join the actions, events, and opportunities we're planning for **digital collective action**. You can find more info on our social media & website.

See you online!

While we might be going digital this year, our goal remains the same: **to use our power as youth to mobilize the world to take the most meaningful actions to halt the loss of biodiversity.**

No matter where you are, you can make a difference!
